

DIAL INDICATOR KIT WITH EXTENSION RODS

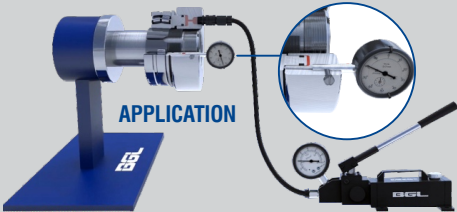

PRECISION AND PRACTICALITY IN EVERY MEASUREMENT! Tools for Bearings

Developed to offer safety, performance, and convenience, the BGL Dial Indicator Kit with Extension Rods is the ideal solution for monitoring the axial displacement of Hydraulic Nuts from the HMV and HMVC series.

Available in both **analog** and **digital** versions, the kits include everything you need for reliable and efficient measurements. Each kit comes with **4 Extension Rods** of 10, 20, 30, and 40 mm, as well as a **spherical contact tip**, allowing precise measurements at different depths and assembly conditions. Packed in its own protective case, the set ensures protection, organization, and practicality for transport and daily use.

SUITABLE HMV/HMVC	ANALOG		DIGITAL	
	RCA 10	RCA 20	RCD 12,7	RCD 25,4
	10 mm Stroke + Extension Rods	20 mm Stroke + Extension Rods	12,7 mm Stroke + Extension Rods	25,4 mm Stroke + Extension Rods
	HMV 10E until HMV 62E	HMV 10E until HMV 236E	HMV 10E until HMV 118E	HMV 10E until HMV 236E
	HMV 68E until HMV 84E		HMV 125E until HMV 160E
